

best quality packaging products  
& contract manufacturing

## Group Companies

**Alpha Plastomers** suppliers of world class packaging for garments & textile made-ups. These are PPTQ & PE Liner bags with higher gloss and shine. Also introduced POF shrink film for the first time in India on a five-layer imported plant to cater Various Industries.

**Alpha Packaging** is leading Plastic Bottles, Jars, Preforms, Caps & Closures manufacturer with modern production facilities at Daman, Baddi & Roorkee. Bottles are produced under Class 10,000 clean room condition using state of the art technology.

## Inspired Leadership to Provide Best Value to Customers and Business Partners

- Alpha Group has been founded and led by legendary Shri Kanhaiyalal Agarwal, assisted by his three sons, who individually head various business divisions of the Group.
- Alpha Group is amongst the largest consumer of polymers and one of the leading companies in the field of packaging.
- State-of-art manufacturing facilities at Daman, Roorkee and Baddi.
- Hand-picked team of high-caliber professionals work under best practices to provide top quality products and services.
- Continuous innovation facilitates leveraging versatile capabilities of plastics for the modern world.

PP, PE - Bags & Liners & Speciality Films

  
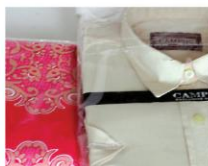

**ALPHA**

## World's No.1 manufacturer of polypropylene bags & sheets

- With a battery of 20 high output extruders which can process 10,000 MT of polymers.
- Only FDA approved virgin material used, giving high clarity and high gloss to the blown film.
- Capability to produce narrow width (100mm) tubing/bags to wide width (1,000mm).

## Polythelene (LDPE, LLDPE, HDPE, MDPE)

### Capability

- High Strength
- Good Openability
- Thickness Range: 10 - 100 mic
- Width: 5 – 45 inch

## PP bags (blown films)

Presently the company is manufacturing over 10,000 MT per year of packaging films and bags. Polypropylene bags/liners and films, which range from widths of 4 inch to 40 inch, and thickness 20 to 200 microns. Flexo-graphic printing up to 6 colors is also offered.

## For uses in packaging of:

- Garments
- Dry Fruits
- Presentation Files
- Postal Envelopes
- Sarees
- Shirts
- Chemical liners
- Sugar Liners
- Undergarments
- Stationery Albums
- Pharma Packaging
- Fruit & vegetables
- Trousers
- Folder Files
- Magazine Covers
- Cereals & rice

**Alpha** group is the first company to set up a plant of POF Shrink Film in India and embark the production with the best of European technology and technical expertise from one of the leading players.

The five layer extrusion POF Shrink film is light, non-toxic, odourless, and it has advanced properties: high tensile strength, high clarity and gloss, high shrinkage ratio, lower sealing temperature and environment friendly.

## a-005: Bi-oriented Shrink Packaging Film

With crystal clear clarity, a-005 is a world class standard bi-oriented Polyolefin shrink packaging film developed and manufactured by ALPHA to provide a solution for all shrink packaging needs at an economical cost. It is a better alternative to other packaging material especially PVC which have been banned by many countries including Europe because of pollution and harmful effects.

## First Polyolefin Shrink Film Plant in India

## Thickness/Length of POF's available:

12mic	1665m
15mic	1332m
19mic	1067m
25mic	800m

# Alpha Packaging

Plastic - Bottles/Preforms/Jars/Caps/Closures

## Pioneering enterprise development in polymers

- One of the largest single-stage PET bottles manufacturers in India.
- We produce over 100 million bottles per month in various sizes ranging from 10ml to 2800ml.
- World's cutting edge technology machines from ASB Nissei, Husky & K.M.
- A fully equipped and integrated, modern R & D facility in-house, for adding further value complete technical support and guidance is provided by ASB Nissei & Husky.

## An ISO 9001 certified company

- Industry segments like pharmaceuticals, Agro chemicals Confectionery, Water. Beverages, Carbonated drinks, Personal care products, are Catered
- PET bottles are produced under strictly controlled technical and environmental parameters.
- The bottles are packed in Clean Rooms conforming to Class 10,000.
- We also develop customer specific and product specific Bottles & Preforms.
- Additional capacities are being added to the existing ones at

## Strategic Partnership approach with business associates

- all three locations i.e. Daman, Roorkee and Baddi.
- For certain specific end-uses we also undertake in-house manufacturing of closures to go along with the bottles and jars.
- Exports of PET Bottles & Preforms form an important part of the portfolio..
- Possibilities are being explored to venture into new product lines and new locations.

# Plastic - Bottles/Preforms Jars/Caps/Closures

## Advantages of single- stage produced PET bottles

- Greater top-load bearing capacity.
- No problem of odour, since polymer is heated only once at high temperatures.
- No possibilities of scratch marks since no separate handling of Preforms.
- Single-stage bottles have a better shine as the manufacturing process is integrated.
- Neck diameters accuracy is fully maintained, eliminating problems of capping & Leakage.
- Manufacturing process ensures no variation in body thickness and other critical parameters.

## Manufacturing Processes

- ISBM (Injection Stretch Blow Moulding)
- IBM (Injection Blow Moulding)
- EBM (Extrusion Blow Moulding)
- IM (Injection Moulding)
